## Aboriginal Heritage Planning Assistance

**Are you a primary industry company in exploration and/or production stages and requires assistance with developing new plans, reviewing existing plans or general advice on where to start, to meet your statutory obligations under the relevant Aboriginal Heritage Acts in your state?**

Our consultants specialise in working with you to coordinate and facilitate suitable planning and development works with Native Title Holders and their representative bodies to meet your obligations.

### **SERVICES WE OFFER:**

- Clearance Area Surveys
- Indigenous Land Use Agreements;
- Cultural Heritage Management Plans; and,
- Heritage Surveys.
- Contract and Project Management

This includes sharing our expert knowledge on the significance of working together with Aboriginal communities to ensure a respectful and inclusive process that honours the traditional owners of the land.

We recognize the importance of making this collaboration affordable for companies, striking a sound balance between cultural preservation and economic feasibility. We can also coordinate and facilitate key Heritage personnel required to work with the Native Title groups to complete the works including Anthropologists and Archaeologists.

Acknowledging that once plans are in place, the company will require on-going implementation support, advice and guidance, we can be your trusted partners to help you through.

Contact our Vital Energy team today to see how we can help you and your business.
